## CADDY MAXI LIFE

The Volkswagen Caddy is the leading wheelchair accessible vehicle in its class.

The Advance Caddy Maxi wheelchair access conversion is renowned for its flexibility. It can be configured as either a five passenger + one wheelchair or a seven passenger lay out. Alternatively you could also decide to remove the rear passenger seats and have the wheelchair occupant directly behind the front seats. With the low gradient Advance Maxiview ramp as well as the option of a powered winch/restraint system loading a wheelchair is effortless. Advance continually strive to make the travelling experience enjoyable for both occupants and carers. The all new Advance Coil Assist technology is ground breaking in ensuring that even smoother rides can be achieved and that factory suspension geometry is retained. The Caddy Maxi life makes for a sporty experience with its punchy turbo diesel engine giving extraordinary fuel economy without sacrificing power and torque. The Advance conversion boasts the largest interior dimensions in the industry. The quality of workmanship and materials used in these vehicles means you receive a finish that compliments the original factory interior.

Feel Free to contact us to arrange a demo to see firsthand the excellence displayed in an *Advance* conversion.

## MULTIVAN / TRANSPORTER

The VW Multivan is well known for its vast roominess. When converted by Advance for wheelchair access it makes the perfect vehicle for a growing family, or someone who is inclined to tour Australia. Offering economy results similar to that of a car, this vehicle is an excellent option for those that desire space and lots of it! Advance has put a lot of effort into developing this model, ensuring the conversion is inconspicuous. As well as being able to be converted for low floor rear wheelchair access this vehicle can be fitted with side access cassette lifts, rear entry lift up hoists, air bag suspension and so much more. In the hands of Advance the Transporter/Multivan becomes a very versatile vehicle.

Feel Free to contact us to arrange a demo to see firsthand the excellence displayed in an *Advance* conversion.

## KANGOO

The Renault Kangoo with its groovy appearance makes for an excellent compact wheelchair accessible vehicle, presenting excellent value for money. With the ability to have customized seating options including up to four passengers + one wheelchair this vehicle is ideal for small families or senior citizens with its excellent all round visibility for suburbia driving and parking. The ride quality of the Renault Kangoo is outstanding and is further complimented by the Advance Coil assist technology making for an overall unbeatable driving experience. The Advance Renault Kangoo offers the largest internal dimensions in the industry. A wide range of restraints are available for this vehicle to best suit your need.

***Please feel free to contact us  
for a Kangoo spec sheet  
or additional information.***

## RIDE QUALITY TRIALS

Advance recently supplied vehicles and participated in a series of ride quality trials conducted by Latrobe University.

This was conducted with an Autoliv crash test dummy in a wheelchair. There was a vast amount of data captured which will prove invaluable in the development and further refinement of wheelchair occupant travel and comfort levels.

## WE APPRECIATE YOUR FEEDBACK

Advance are busy at the forefront of vehicle conversion design & finish for the disabled. Our conversions are continually evolving as new makes and models of vehicles are released. Call us today and book in a demonstration, we are always keen to show our wares and fulfil your every need.
